The Herbert C. Bonner will be returning to service mid-April. Please continue to make vehicle reservations well in advance while the Prudence Ferry remains in service. And remember, even with the larger vehicle capacity on the Bonner busy weekends fill up quickly!

PBIT has been informed that the annual numbered parking spots will no longer be available on the Bristol Dock starting April 1st. These spots will be relocated to the municipal parking lot across from the Robin Rug building. If you currently pay for a spot on the Bristol dock an update on the parking should be coming in your annual bill. There will be no day or overnight parking for Prudence Island residents/visitors on the Bristol Dock. Limited handicap and live parking spots will be provided close to the ticket shed for unloading/loading.

No dates have been set for construction by the Town of Bristol to repair the North side of the dock. We remain in contact with the town to avoid any impact on ferry service by the construction.

We recently issued a test of our text message alert system (3/5/2019) in order to update and verify our customer information and remove any old contacts. If you received the test message and would like to continue to receive alerts please ignore the message.

If you did not receive the test text message (3/5/2019) and would like to receive text alerts; please click the button below to fill out the text alert sign-up form or see us in the Prudence Office, so we can add or update your information.

In order to receive our messages, we must have your correct cell carrier (Verizon, AT&T etc) in addition to your full phone number. If you changed numbers or carrier since signing up for alerts please fill out the form to edit your information.

If you currently receive our messages but would like to stop receiving them or alter the times of year you receive them, please email us at ARmarine-office@pi-ferry.com or reply STOP to any of our previous text messages.
